

# Practical Course: Logic App Development

## Exercise sheet week 12

*To be completed before 19th January 2024, 11am.*

1. Write a program in go which has the same functionality as the dart program from week 3, task 2. The parameters `minDie` and `maxDie` should also be constants. See

<https://golangdocs.com/command-line-arguments-in-golang>

for command line arguments in go.
